Cc: John Satterfield <john.satterfield@chk.com>

History: This message has been forwarded.

Jeanne and Ramona:

It is unfortunate that the EPA HF study project schedule and Site Selection Criteria sent February 2, 2012 precludes using the originally proposed site located in the Haynesville Shale. We are disappointed that all our collective work associated with that site cannot be accomplished based on these documents, but will nonetheless work with you to find another prospective site.

We look forward to our meeting tomorrow to focus on selection of a new Chesapeake site for a prospective study. We will come prepared to offer potential sites based upon the new EPA schedule and selection criteria.

We remain hopeful to schedule a meeting soon to resolve other project related issues that were not specific to the study location, such as the QAPP. Perhaps we can schedule a follow up video conference for this coming Thursday? Please let me know of any additions/changes to the attached action item list.

Thank you,
Stephanie R. Timmermeyer
Director - Federal Regulatory Affairs
Chesapeake Energy Corporation
